Operating Excellence in Shipping  
(London)

With a **7-year track record** it is the only Forum that showcases **Operational Excellence in the Maritime & Offshore Sectors** and explores **Best Industry Practices** across all major areas such as fleet management, technological innovation, crewing, energy efficiency and the environment, safety & security. The Forum provides an interactive platform on the topic of Operational Excellence, Best Industry Practices and Sustainability linking industry, government and non-governmental organizations, industry associations, the financial and investment community, and the public at large.

**Best Operating Practices are closely related to Corporate Social Responsibility (CSR).** The companies that are committed to implement best practices strive for a culture of safety, security and excellence that benefits all stakeholders, including employees, business partners and society at large.

**We are delighted to see how the industry has embraced this Forum.** Last year, Senior Executives from 23 leading shipping & offshore company executives, 3 major classification societies, as well as charterers, financiers and key industry organizations came together to discuss how the implementation of Best Industry Practices translates into tangible commercial, operational and financial competitive advantages. The extensive company participation in the Forum is key, as ultimately it is the companies that are implementing these Best Industry Practices and enables us to attribute to the operational side of the business the attention it deserves.

## “2017 CAPITAL LINK MARITIME CSR AWARD”

HONORING MR. JACK J. BUONO, FORMER CEO AND PRESIDENT – SEARIVER MARITIME, INC.
